

## CONFERENCE THEME

**Wisdom Integrated · Diversified Development — Active Health  
Hospital Transformation and Construction Innovation**

## THEME DESCRIPTION

The wisdom system integrates the medical industry into a closed-loop private network. With the support of 5G and other systematic technologies, the future health service will form an intelligent system of diversified and orderly medical and health service. As the key goalkeeper in the field of medical health, hospitals take health as the center to meet the health service needs of patients. Active health hospitals will have profound and long-term changes in planning and design, construction mode, service process, equipment and facilities, etc. This conference will jointly discuss how to achieve integrated wisdom and diversified development in the medical and health service under the demand of national policies, as well as how to guide the transformation of modern hospitals from passive medical treatment to active health with the construction innovation concept.

## TIME & PLACE

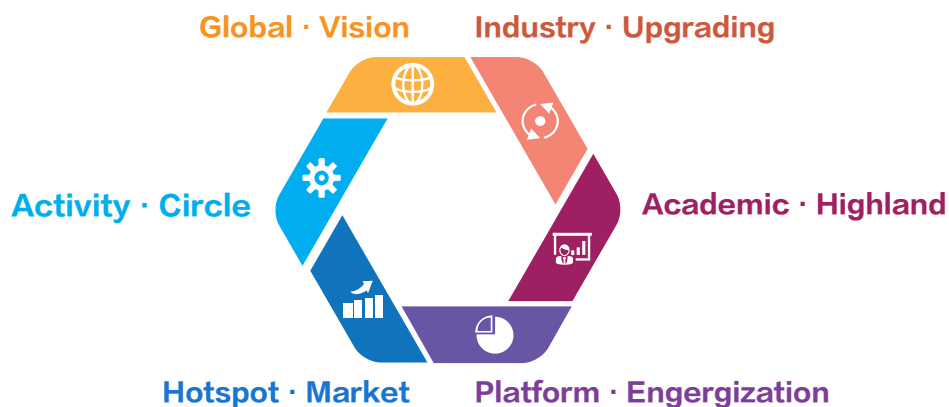

**Time:** September 19-21, 2020

(September 18 for registration, 19-21 for conference and exhibition)

**Place:** Shenzhen International Exhibition Center

(Address: No. 1, Zhancheng Road, Fuhai Street, Baoan District, Shenzhen)

## HIGHLIGHTS

### **Global · Vision:**

Health Silk Road to build an international hospital construction community.

China Hospital Construction Conference (CHCC) has always been based on the “Belt and Road” initiative framework, taking the cooperation opportunity to promote the establishment of a new global health strategic partnership between WHO and China. From a global perspective, CHCC will invite more than 30 countries and regions, tens of thousands of hospital construction followers to work together to build an international hospital construction community and lay an open and innovative “health silk road”.

### **Industry · Upgrading:**

Join forces to open a new pattern of medical and health industry.

The arrival of 5G era has once again opened the door to the construction of intelligent hospital. China hospital building and equipment industry has entered the fast lane of second upgrade, accurately connecting the industry end, building modern hospitals, systematically integrating the industry end, and comprehensively upgrading the service. A green and healthy ecological network is extending horizontally and vertically along the direction of perfection.

### **Activity · Circle:**

Gather strength to build 5 circles in hospital construction.

CHCC2020 adheres to the purpose of serving the circle and connecting the industry. Through the planning of 8 knowledge systems and the operation mode of O2O2O (Online to Offline to Online) , CHCC2020 gathers top experts&scholars and senior managers in the five fields of design, architecture, logistics, intelligence and industry, to provide closed-loop interaction of different circles and complete solutions for new, reconstructed and expanded hospitals.

### **Academic · Highland:**

Accurate benchmarking, predicting and leading on the industry direction.

Under the historical opportunity of wisdom integration and industry transformation, driven by both technology and market, the industry needs overall innovation. The five conferences of the same industry held at the same period will provide multi-dimensional knowledge systems from top-level planning to construction and implementation, such as supporting construction, medical worker, equipment and nursing, to meet all professional needs of modern hospital construction managers, and also provide a one-stop, diversified negotiation and exchange platform for enterprises and manufacturers.

### **Hotspot · Market:**

Focus on hotspots for health and medical development, such as the joint development of the Guangdong-Hong Kong-Macao Greater Bay Area, Beijing-Tianjin-Hebei integration area, Yangtze River Economic Belt, the Northwest Region of the Belt and Road, the cooperation between the southwest border and Southeast Asia. The conference will be held in Shenzhen, the core city of the Guangdong-Hong Kong-Macao Greater Bay Area, following the development trend of hotspots and detonating the 200 billion hospital reconstruction market.

### **Platform · Energization:**

Give full play to the platform value, to link various resources and energize the industry.

Compared with 2016, the 21st of an average annual growth of 30% -- China Hospital Construction Conference (CHCC) has played a legend of perfect academic and commercial combination, and continuously maintained the first brand activity of the global hospital construction industry. The CHCC of this year emphasizes more on the nature of platform, jointly cooperating with more industry organizations, local resources and high-quality enterprises to organize customized forums and concurrent activities, building an ecological platform for mutual consultation, joint construction and sharing, cross-border integration and symbiosis.

## UNDERSTAND THE FORUM WITH 1 KNOWLEDGE MAP

Professional academic | Discussion on professional and subdivided knowledge, gathering academic thoughts of industry leaders, academic experts and industry masters.

Solutions | Training on knowledge system constitutes, to systematically provide solutions on the pain points encountered in the key links of hospital management, planning, design, construction, operation and practice.

Explore innovation | Open the border to integrate resources, give full play to the platform value, adhere to the coordinated development concept of ecological symbiosis, link the superior resources, and boost the development of China hospital construction industry.

## 3 MAJOR BRAND EVENTS

China Hospital Construction Awards  
Industry Activity  
Hospital Inspection

## 6 DIMENSIONS

From strategy, management, infrastructure, intelligent operation, innovative service to application practice;

From a global perspective, solve the composite demands for modern hospital construction and development

## 5 CONFERENCES OF THE SAME INDUSTRY HELD AT THE SAME PERIOD

The 21st China Hospital Construction Conference

The 5th China Smart Hospital Conference

The 3rd Medical Engineering Development and Innovation Conference

The 2nd China Hospital Equipment Industry Upgrade and Health Industry Technology Park Development Summit

The 2nd Seniors Health Organization & Development Conference

## 9 HOTSPOTS

Policy and development strategy

Operation and discipline development

Management and practical exploration

Design and environment innovation

Special project and technological innovation

Smart hospital and equipment innovation

Smart hospital and service innovation

Innovation model of social medical management

Health care and nursing service

## THEME FORUMS

**The 21<sup>st</sup> China Hospital Construction Conference**
**Strategic  
Development  
Section**

- China Health Policy and Medical System Reform Summit
- Forum on Healthy Chinese Action and Service System Reform
- International Medical and Health Service System Development Forum
- The Belt and Road Hospital Development Summit

**Institutional  
Innovation  
Section**

- Dean Summit Forum on Sustainable Development of China Large Hospitals, National Regional Medical Center Construction and Development Forum
- General Forum on Long-term Planning and Continuous Improvement of Large Hospitals
- Thematic Forum on Comprehensive Service Ability Improvement of China County Hospitals
- Forum on Hierarchical Diagnosis and Primary Medical Service Capacity Building
- Leader Summit on Social Medical Development Innovation

**Industry  
Upgrade  
Section**

- China Hospital Equipment Industry Upgrade and Health Industry Technology Park Development Summit
- The 8<sup>th</sup> China Health Industry Development Innovation Summit Forum (Peer Forum of National Aged Nursing Institution System Construction and Development Conference)
- The 4<sup>th</sup> International Hospital Construction and High-end Medical Service Development Forum

**Front Design  
Section**

- The 9<sup>th</sup> Chinese and Foreign Hospital Architect Summit Forum
- The 7<sup>th</sup> Asian Medical Service Facility Architect Forum
- Thematic Forum on Discipline Planning and Medical Process Design, Special Forum on Hospital Infection Control and Management
- Hospital Environmental Art Design and Material Application Forum
- Thematic Forum on Smart Hospital Planning & Design and System Construction (Peer Forum of Smart Hospital Conference)

**Technical  
Innovation  
Section**

- Hospital Building Technology Innovation Forum
- Forum on Smart Hospital Intelligent Operation & Maintenance and Internet Application (Peer Forum of Smart Hospital Conference)
- Thematic Forum on 5G Technology Hospital Service and Management Model Transformation (Peer Forum of Smart Hospital Conference)

## Specialty Development Section

- Thematic Forum on the Construction and Development of Rehabilitation Hospitals (Peer Forum of National Aged Nursing Institution System Construction and Development Conference)
- Thematic Forum on Construction and Development of Traditional Chinese Medicine Hospitals
- General Forum on Standardization Construction and Management of Maternal and Child Health Care Institutions
- Thematic Forum on Tumor Hospital and Cancer Center Construction and Development
- General Forum of Emergency & First Aid System Planning and “Big Five” Center Construction
- Thematic Forum on Assisted Reproductive Medicine Center Planning, Design and Equipment Configuration (Peer Forum of Medical Worker Conference)

## Special Project Section

- Thematic Forum on Hospital Nursing Space Construction
- Thematic Forum on Hospital Clean Room and Special Ward Construction
- Thematic Forum on Medical Gas Supply System Construction
- Thematic Forum on Hospital HVAC System Construction
- Thematic Forum on Hospital Logistics System Construction
- Thematic Forum on Hospital Water System

## Green Hospital Section

- Hospital Energy Planning and Intelligent Operation Forum
- Thematic Forum on Energy-saving Reconstruction and Efficiency Improvement of Existing Hospital Buildings
- Green Hospital Architecture Design and Construction Forum

## Project Management Section

- General Forum on Hospital Infrastructure Construction Project Management
- Thematic Forum on Bidding, Procurement and Financial Management of Hospital Construction Project

## Mode Innovation Section

- Thematic Forum on Hospital Construction EPC Mode
- Thematic Forum on General Contracting Mode of Hospital Construction Engineering Project
- Thematic Forum on Consultation for the Whole Process of Hospital Construction Project

## Transformation and Upgrade Section

- Thematic Forum on Existing Hospital Hardware Facility Configuration and Service Capability Enhancement
- Thematic Forum on Reconstruction and Upgrading of Existing Hospital Building and Important Space
- Thematic Forum on Integrated Reconstruction and Upgrading of Existing Hospital Information System

## Logistics Upgrade Section

- Thematic Forum on Intelligent and Integrated Management of Hospital Logistics and Service Capability Enhancement
- Modern Hospital Quality Logistics Management and Mode Innovation Forum - Special Session of China Top Ten Hospital Logistics Demonstration
- Hospital Supply Chain Management Forum (Peer Forum of Hospital Worker Conference)

## Medical Technology Section

- Thematic Forum on Planning and Construction of Modern Compound Operating Room
- Thematic Forum on Planning, Construction and Management of Nuclear Medicine Department (Peer Forum of Hospital Worker Conference)
- Thematic Forum on Construction and Management of Hospital Washing and Disinfection Supply Center
- Thematic Forum on Construction and Management of Venous Dispensing Centers in Hospitals
- Thematic Forum on Planning, Construction and Management of Medical Imaging Center (Peer Forum of Hospital Worker Conference)
- Thematic Forum on Planning, Construction and Management of Endoscopy Center

## Cross-border Expansion Section

- Fengshui Theory and Hospital Building Environment Layout Planning Forum
- Thematic Forum on Hospital Sensing Control and Nursing Management

## Public Health Emergency Management Section

- Forum on Construction and Management of Public Health Emergency Prevention and Control System
- Forum on Hospital Infectious Disease Prevention and Control Space Planning and Construction
- Hospital Logistics Emergency Support and Management Forum

## Medical Laboratory Section

- China Medical Laboratory Development and Innovation Forum
- Thematic Forum on Inspection Center Construction and Equipment Configuration

## Local Development Section

- Forum on Guangxi Medical Health Planning and Construction & Development
- Suzhou Medical Health Innovation and Development Forum
- Guangdong Multi-district Hospital Construction and Management Innovation Forum
- Diversified Cooperation and Construction Mode Innovation-Xuzhou Hospital Forum
- Medical Service Brand Innovation Forum- Subsidiary Hospital of Nantong University
- Xiamen Healing Environment Optimization and Internet Innovation Forum
- Taiwan Medical Care Experience Sharing Forum
- Shenzhen Hospital Construction Project Management Forum
- Guangdong Apex Hospital Innovative Construction Forum
- Forum on Greater Bay Area Hospital Planning, Construction and Management

## International Development Section

- China-US Intelligent Hospital Construction Forum
- Special Session of Dutch Hospital Architects

## China Smart Hospital Conference

### Policy and Direction

- Global Smart Medical Development Summit
- Smart Medical Mode Innovation Forum

### Innovation Planning and Implementation of Smart Hospital

- Forum on Innovation Planning and Process Reconstruction of Smart Hospital in “New Infrastructure Construction” Era
- Thematic Forum on Smart Construction and Building Intelligence of Modern Hospital
- Practice Forum on Medical Information Solution in New Era
- Forum on Construction and Management of Intelligent Engineering of Modern Hospital
- Forum on New Development and New Path of Internet Hospital

### Information Integration and Supporting System

- Thematic Forum on Standard Application and Management of Medical Data
- Thematic Forum on Integrated Upgrading of Existing Hospital Information System

### Fine Management

- Thematic Forum on Intelligent and Fine Hospital Management
- Service Capability Reformation by DRG Payment and Management

### Technology Innovation in 5G Era

- Forum on Smart Hospital Innovation Practice in 5G Era
- Forum on Smart Hospital Intelligent Operation&Maintenance and Internet Application in “New Infrastructure Construction” Era
- Forum on Robot Application in “New Infrastructure Construction” Era
- Forum on Artificial Intelligence Application in “New Infrastructure Construction” Era
- Thematic Forum on Application of Big Data, Blockchain and Cloud Computing in Smart Hospital in “New Infrastructure Construction” Era

### Smart Hospital Practice Sharing

- New Strategy for Smart Maternal and Child Health Care
- New Change in Smart Chinese Medicine
- Special Forum on Intelligent Technology
- Special Session on County Hospital Union
